

## ACCELERATING THE MULTILATERAL RESPONSE TO CLIMATE CHANGE

Virtual High-Level Roundtable  
Wednesday 27 October - 14:00 Paris time

### PROGRAMME

Following the publication of [Pulling Together: The Multilateral Response to Climate Change](#), the Multilateral Organisation Performance Assessment Network (MOPAN) with the support of the Government of Luxembourg are organising a High-Level Roundtable of Multilateral Organisation (MO) leaders, Ministers and senior level officials to discuss how to accelerate the multilateral system response to climate change through concrete policy measures.

Leaders of MOs will be invited to present how they are putting climate change at the centre of their strategies, and using innovative approaches to meet international commitments. Ministers from MOPAN members, as stakeholders and shareholders of the system, will consider how member states can further shape their policies towards multilateral institutions, in the pursuit of these common goals. Lastly, reflections from private sector perspectives will highlight the conditions that are necessary for private sector investments to be optimised.

The event will identify concrete steps that can be implemented by stakeholders to strengthen the multilateral response.
